SUWANNEE ECHOES

Co. 450 C.C.C. WHITE SPRINGS, FLA.

VOL. II NO. 10 SEPTEMBER 27, 1935

MR. BACON IS MOVED TO OLUSTEE

After serving more than two years as engineer at this camp, Mr. Francis H. Bacon left Wednesday to become Camp engineer at Camp P-67, Olustee.

Last Saturday, Mr. Bacon received orders to go to Eastport. Sunday that transfer was rescinded, and Tuesday, he received instructions to go to Olustee.

It was in May 1933 when Mr. Bacon began work at this camp. At that time, the CCC was just getting under way and those who were in the CCC at that time can remember how unsettled things were.

In point of service, Mr. Bacon is the oldest person at this camp -unless it is Mr. Adams. Because of his continuous service, he was thoroughly familiar with lines, boundaries, and areas that affect the work of the men here.

Because of his thorough knowledge of the work here from the beginning up to the present, the services of Mr. Bacon will be greatly missed. And besides losing a competent engineer, we feel that we are losing a good and loyal friend. Mr. Bacon has been very cooperative with camp activities.

With him go our highest regard and best wishes.

FIFTY MEN LEAVE MONDAY

Choosing the outside cruel world rather

(CONTINUED PAGE 3)

LIEUTENANT BACON ASSIGNED HERE

On Friday night, Sept. 13th., Lt. E. D. Bacon, 328th Infantry, arrived here to assume his duties as Post Exchange Officer and Mess Officer. He is taking over the duties formerly performed by Lt. J. L. Perkins who has just completed a six-months tour at this camp.

Lt. Bacon is from Miami, Fla. He was there during the Labor Day hurricane, and although little damage was done at that point, he says that the wind reached a dangerous momentum.

During the world war, Lt. Bacon served as First Sergeant at Camp Greenleaf, Fort Oglethorpe, Georgia.

Although it may be a difficult task to make a greater number of friends here than Lt. Perkins has made during the past six months, Lt. Bacon seems like a man who can accomplish just that.

We hereby extend a welcome to Lt. Bacon together with our best wishes and cooperati

- -

MR. LEYNES IS NEW ENGINEER

Coming here as Project Engineer, Mr. B. C. Leynes arrived Wednesday to take over the work formerly performed here by Mr. F. H. Bacon.

Mr. Leynes is not new in CCC work. For more than a year, he served as engineer with company 1431, at Green Cove Springs, Bronson, and other points where Companies have been located. His home is Gainesville,

"SUWANNEE PHILOSOPHY"
By C. W. Johnson

Baer was Baer-eed with punches.

That reminds me of the boxer who drank the ginger ale and grape juice and got punch drunk.

If once a flea flew, could ever a flue flee?

Little "Willie" for a trick
Got a job as the camp's top-kick,
Now he's feeling mighty blue
'Cause there's lots of work to do.

If a man offers to work for nothing he can't find a taker as everyone thinks that there is a catch in it.

One fellow thinks that the term G-Men is a nice way of mentioning the garbage collector.

Don't forget the man who tied a string around his neck so he'd remember to hang himself.

And the man who perfumed, powdered and dressed up when he played poker so Lady Luck would stick with him.

Luck ain't no lady, she's a gold-digger.

"FAREWELL"

With regret we take this opportunity to bid farewell to the boys leaving camp next Monday, Sept. 30th. We have enjoyed having everyone of them with us and hope that they will find the out side world calling to them with a wonderful future.

They will be missed among the number of friends they have here in camp. Their foreman will miss them at their work and the company will suffer in their athletic achievements from their absence. However we wish them the best of luck and hope that they return to see us on their first chance.

In parting, may we state that Suwannee Echoes has stood for giving the men something that would make them better citizens here, and later on in civilian life.

If your record at Company 450 has been good, you are to be congratulated. We hope that your aim on the outside will be to live in such a way that credit will be reflected on your record as an AMERICAN CITIZEN.

SUWANNEE ECHOES

A POEM
By Wilcoxson

DEAREST:-
I truly believe the Lord above
Created you for me to love.
He chose you from all the rest
Because he knew I'd love you best.

I once had a heart so tender and true
But now it has gone from me to you
So please take care of it as I had done.
For you have two hearts while I have none.

If I get to heaven and you're not there
I'll paint your face on the Golden Stairs
And if you're not there by judgement day
I'll know you've gone the other way.

I'll give back the angle's their golden wing
Their golden harps and other things
And just to show you what I'll do
I'll go to H--- dear, just for you.

BE AGREEABLE

If your task is hard, be agreeable.
If some one tends to "get on your nerves", be agreeable.
If men malign you, be agreable.

(CONTINUED FROM PAGE 1)
than additional time in the Civilian Conservation Corps, fifty men will leave here Monday, September 30th, to take up their places with the folks back home.

Recent rulings have made it possible for a man to stay longer, even though he may have been an enrollee for more than a year. Some of the men going out Monday have been here longer than a year; others have been here only three months.

Some of those going out have made arrangements for jobs at home or elsewhere, while others are getting out just to "look around" and see what they can find.

A number of the men we are losing will be greatly missed around the camp. Some of them have stood by the Camp Newspaper through thick and thin. For this service we are deeply grateful, and we hope that they will continue to find worthwhile projects upon which to devote their time.

- -

HOLD FIGHT RADIO PARTY

Ringside results of the Baer-Louis fight Tuesday night were dished out directly to the men here.

The large company radio was hooked up in the window or the recreation hall so that the men could gather around outside and hear what Graham McNamee, et al, had to say about the "fracas". Special connections were made to the aerial atop the recreation hall and a special ground was made by Blacksmith Turner. These new arrangements brought in the results in great shape. It is believed that at least 99% of the men in camp were present to get the results.

Other important events in the near future will go to the men here in a like manner.

- -

NOTICE

Unless otherwise informed Dr. Montgomery Will be here next Tuesday Night.

AN EAGLE'S EYE VIEW

"Ole Man River" reached its peak last Tuesday morning. Since that time it has been dropping steadily, slowly. During the recent wet weather, it reached a higher level than at any time since this camp was established here.

It seems that we were getting too much BACON here in camp. Now part of it has been taken away. Perhaps the scarcity of EGGS had something to do with it. From September 13th to 25th, we had in our midst a Forester Bacon and a Lieutenant Bacon. This week, the Florida Forest Service said, "No, that is too much bacon". So they moved our old friend Forester Bacon to another camp.

Nature adjusts itself to its surrounding Climate. We have had so much rain until all the animals were getting accustomed to the water, in fact we mortal beings were rapidly becoming amphibians too. Now the sudden dry weather is causing some of us to have bad colds.

A lot of "pep" is being shown in the diamond ball games. Not only have wee seen some good air-tight, nip-and-tuck playing, but we have also witnessed a world of humor, clowning, GOOD sportsmanship.

If you want to do your good turn regularly, get in the habit of returning the library books promptly. The magazines should be returned on time too. Promptness in this makes it possible for the greatest number of men to get the greatest goo out of these magazines.

'Twas a very good radio party Tuesday night when the Baer-Louis fight was coming in. We hope to have these radio parties again during the "World Series" baseball games.

TINY GENTLEMAN
By C. W. Johnson

Little Willie, such a lad,
Just for fun he killed his dad,
Made his mother kinda sore
'Cause his clothes got soaked with gore.

She could overlook his tricks;
Breaking windows out with bricks,
Pulling tails from her canaries,
Feeding brother night-shade berries.

Didn't even mind his pranks;
Pouring gas in water tanks,
Driving spikes through arbor seats,
Mixing cyanide with meats.

Snickered when he burned the house;
Shocked his Grandma with a mouse,
Sawed in two the kitchen table,
Cut a leg off sister Mable.

Mama liked his pranks and such
But that one deed was just too much,
Killing Pa was not so bad.
HE BLOODIED ALL THE CLOTHES HE HAD.

- -

THE SIMPLE LIFE

The simple life you rarely find.
But frequently the simple mind.

By Paul Pry

WORST OF ALL

He never smoked or drank a drop
He was against all forms of dope.
He thought his car could beat a train.
He's playing a harp we hope
-"Rasputin". Orange Park.

IN THE GIDDY WHIRL OF CO. 450th SOCIETY--

We announce the engagement of Robert Going The bride will be announced later and the time as well.

In accordance with a social call our big cook Sadler was paying a visit in White Springs, He received a letter stating "I want to sit by my darling".

Our once popular Mr. Kem has reclined to camp. He now has a long growth of whiskers and does not seem to be interested in anything.

Willie Frank seems to have competition in White Springs, again. Green seems to be turned out to be a regular giglio.

Mr. Brooks is spending the last few days of his CCC enlistment, rather socialy. We warn him he is no hunter, so why try to catch all the game in the country.

Reclining every afternoon we have Ned and Cody, they are always talking about how it seemed to be free.

- -

WANTED

Please leave all old clothes, shoes and socks at the educational room for the boys that are leaving Monday.

All old razor blades. Lopez will call for them to use this winter.

Nine good baseball players to start next season off with a bang.

All old Guitars, Saxphones, Bugles, Flutes, Jass Horns, Drums, and one wash board, for Augie Koepke to use with his Shevolonians this winter.

One first baseman with a cool head to take the place of collins.

One truck driver; With ability to stick trucks, very little skill, with ability to find wet and boggy places in the road, Silled in hitting bumps, and very handsome to replace Willie O'Neal.

"THE SHADOW"

Now the shadwo has a funny little story to tell about a funny little man who works in the forestry office. To tell his name would be a shame, but he is short, stout, blond, and is always grinning, everybody, seems to like him and especialy when they are playing ball they want him to play with them.

This little man very often answers the phone and listens in while other people are talking. But a queer incident happened the other day when he, in a pecular way seemed to have adoped a plan of television. At least a fair damsel was talking on the other end, and this young gentleman had never seen her, but claims an introduction by phone (who ever heard of such). Now naturaly he is the only central on this end of the line so to make conservation he calls to know if she wants to see anyone or to talk to anyone on this end of the line. Evidently he intended to do most of the talking. As he stood before the mouth piece, thrilling todeath by the sound of her voice and the beautiful form in his television mind, he finaly found nerve enough to ask her a question. Guess what kind of a question? In a quivering voice, this little forestery man says, "May I have a date"?.

Now she might have been puzzled because it is probable that she could not see him at her end of the line as he could see her. Well now the Shadow has just one question to ask, When is this date to be? He will tend to the rest.

This little forestry man had better dress up in his duds and walk along shady streets because if the Shadow follows he is sure to talk, but to show you that his heart is in the right place. He wish good luck.

Co. 450th DIAMOND BALL

BREKENRIDGE LEADS NO. 3 TO VICTORY

No 3 Defeated No. 2 by a score of 10 to 6. Tuesday Sept. 24th. the third squad laid the wood on the diamond ball boomers 10 to 6. Brekenridge scored the first run for the third squad in the first inning, Guevara the second and Morgan the third. The third squad were really popping the wood on the old ball for hits.

The diamond ball boomer hero for the first run was Nobles. He scored in the second inning, them came Missildine, Thornton, and Fox all in the second inning. Fox knocked a home run bringing the Missildine and Thornton. He deserves quit a bit of credit from No. 2, Nice going Fox.

McManus having a little trouble with his control was forced off the mound, replacing him was Dyal. Breckinridge pitched a wonderful game.

Reported by Don Herrin.

COLLINS DEFEATS MIDDLETON

A shut out 8 to 0.

Barracks No. 4 played the overhead team, Thursday Sept. 26, 1935. Meats started the victory rolling for No. 4 in the first inning. Collins was hurling the diamond ball with spedd and very good control according to the score sheet Andreus was the only man to receive a hit off of him.

Middleton pitching hard, had very little support without support and a little hitting a ball game cannot be won. No. 4 seemed not to be able to miss the old ball they realy played a good game and the Overhead surely played the part as good sports.

Both Middleton and Collins are in the league with the same average, both lost one game and boty won one game.

SAFETY MEETING

Last Monday evening the regular Safety Meeting was held according to schedule. The entire Company and Forestry personel was present. Due to the fact that Mr. Parnell was absent because of sickness Lt. Cailleteau gave the boys a few points on Safety First. Pertaning to climbing in and out of truck while they are not stand still.

Lt. Cailleteau gave the boys a interesting talk on theft, wearing proper clothing and keeping clean. He warned then against the penalty for stealing. Thus the Safety Meeting was dismissed.

- -

A FISH STORY

Two of the 450 boys wnt fishing last Saturday night. As they approached the creek bank all the surroundings were dark and spookey. A small fire was built and the fisherman began trying their luck. On the oppsite bank the pameadows grew tall and to their supprise they were moving. Something was walking back and to. When it walked sticks were broken. The men looked at each other and wondering who would make first move. Then a loud blow was heard, and being real deep and low it was certain that they had found a bear. The size was spoken of in a low whisper. His eyes was found and judging from them they decided that the bear would weigh about three hundred and fifty pounds. It seemed that the animal was getting furious and the boys began wondering if they should go farther up the creek to finish their fishing trip. But to be sure that the animal wouldn't swim the creek and find them there they began moving to a more quite place. After they had gotten up and started to leave, a more surprising thing happened. A big jersey cow walked out of the palmeadows. Such an experience was had by Missildine and his pal.

THE COMPANY BARBER SHOP

Under construction is the Company Barber shop. Some of the boys made the remark that they are waiting for its completion to get a hair cut. If it proceeds to go up as it did last Saturday it is quite evident that they will be able to get a hair cut before Christmas or maybe Thanksgiving. Although the construction seems slow the shop is gradually taking shape. Williamson with a small crew of men who have helped him some during the afternoons and especially on Saturday mornings have accomplished quite a bit of work.

The building is to have a roof made to the shape of its sides or a six sided roof and will probably be covered with paper compsition. The shop is going to be large enough for one man to work without being crowded.
